

Why take Spanish?

College

Many college majors require at least two semesters of a foreign language.

Careers

There are more than 28 million Spanish speakers in the United States, and Spanish is the primary language in 20 countries. Businesses serving Spanish speakers cannot meet the demand for employees who can communicate. People who speak Spanish are often given hiring preferences over those who don't.

Money

In today's increasingly global economy, many businesses offer cash bonuses and incentives to employees who speak Spanish or are willing to learn Spanish.

Opportunities

With more than 425 million people in the world who speak Spanish (28 million in the United States alone), it is the most widely spoken language in the world. With an increasingly competitive job market, the ability to speak Spanish offers an employee or a job seeker a distinct edge in securing opportunities in the global market.
